Water Should Be Convenient

Modern residents expect immediate access to safe, affordable drinking water without relying on plastic bottles or transporting heavy containers.

Spryng provides fully managed purified water refill stations that deliver premium drinking water directly within residential estates, student accommodation, apartment developments and commercial environments.

THE RESULT:

- ✓ Greater convenience for residents
- ✓ Reduced plastic waste
- ✓ No capital cost
- ✓ No maintenance responsibility

Tap-to-pay purified drinking water
for modern communities.

Safe, affordable drinking water available 24/7 for:

-  Student Accommodation
-  Residential Estates
-  Apartment Developments
-  Commercial Properties

Resident Convenience

24/7 access to purified water, right where residents need it.

Reduced Plastic Waste

Encourages refill over single-use plastic bottles.

Zero Cost Installation

We install, operate and maintain. You enjoy the benefits.

Water, Reimagined.

WHAT SPRYNG HANDLES

So You Don't Have To

Professional Installation

Complete supply and installation at no cost to the property.

Scheduled Maintenance

Regular servicing to ensure consistent performance and water quality.

Filter Replacements

Annual filter replacements included and managed by Spryng.

Remote Monitoring

Ongoing oversight to maximise uptime and system reliability.

Customer Support

Responsive support for residents and property management teams.

System Removal

Equipment can be removed upon request at no cost.

PROPERTY OWNER BENEFITS

Revenue Share

Contributes towards host utility costs.

No Cost to Host

Installation, servicing, monitoring and filter replacements included.

No Maintenance Responsibility

Spryng manages the entire system.

OPTIONAL BACKUP WATER STORAGE

If requested, Spryng can install a backup water tank to ensure uninterrupted service during municipal water outages.

HOW SPRYNG SELECT WORKS

- 1  Place bottle inside
- 2  Select 5L / 10L / 20L
- 3  Tap bank card
- 4  Water dispenses automatically
- 5  Enjoy purified drinking water
